RBC/TPI Muttom Campus Library Complex Completed!

The Muttom Library Complex was completed August 20, 2003. The cost of construction was \$23,600.00. It is made of 18 inch granite stone with marble floors. It is two-story with a total of 3,500 sq. feet. The top floor houses a 4-room apartment for the Rock Bible Centre Director, J. G. Arnold's family and a 28-bed dorm. It has 9 shower stalls and 5 toilet facilities. The roof is a tile covered terrace overlooking the entire campus and the Arabian Sea. It uses the same staircase as the study hall/dorm.

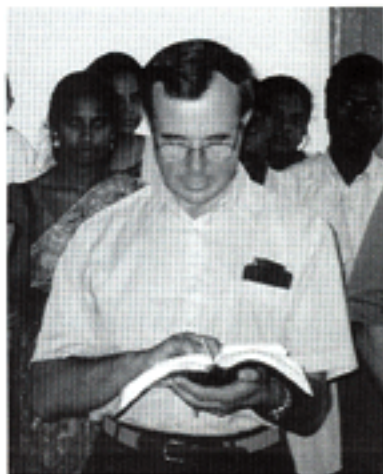

The bottom floor is the main purpose of the building. It houses the library, a storage room for the nearby kitchen and two offices. The outer office is for the campus during registration, etc. The inner office is for Rev. J. G. Arnold. This office houses the campus computer. This computer is useful to our faculty during conferences. They can e-mail families at home. This gives access to offices from a very remote place on the earth. The computer is also useful to the students for accessing on-line libraries.

August 29-September 2, 2003 Muttom Conferences English Pastors' - Tamil Pastors' - Womens' - Advanced Hebrew

(Above) The faculty for the 4-simultaneous Muttom 2003 conferences. Starting with Christine Denton (foreground left) from left to right are: Dr. Clifford Denton, Dr. John Looper, Rev. Jeff Hamm, Rev. Mevalene Anderson, Dr. Karl Coke, Dr. Lynn Reddick, Rev. Linda Reddick, and Rev. Jane Reheard. Bob Reheard was taking this photograph. This faculty taught 6 hours each day in four separate classrooms. The English pastors' conference was held in our study hall. The Tamil-speaking pastors' conference was held in our new chapel. The womens' conference was held in the library. The advanced Hebrew sessions were held in the large office.

(Left) Our new Prayer Chapel is located on the highest point of land on our property. It is isolated from the remainder of the campus for privacy. This chapel serves the purpose for larger gatherings. It seats 120 very comfortably. KCEA provided the marble floor for \$2,000.00 and the 8 white ceiling fans for \$280.00 installed. The cost of construction was paid by a long-time USA pastor friend of Rev. J. G. Arnold. The chapel is named after him - "Glenn Greenwood Chapel." The five buildings on our campus house 3 dorms with 68 beds; chapel; kitchen; dining hall; caretaker duplex; offices; 5 apartments; library; and, a 15KV generator for power.

***Look what you have done the past 12 months!
We praise the LORD again for meeting His budget through our Partnership!***
